Polish Composite Industry | Market Insights | Matchmaking

AZL Composite Event in Poland

Impressions

AZL Composite Event in Poland

Program | October 10th, 2017

09:00 Transfer to Krakow Technology Park

09:30 Introduction and Market Insights

- Welcome and Introduction
Dr. Michael Emonts, Dr. Kai Fischer, Dr. Michael Effing, AZL
- Poland as an Industrial Site
Jacek Bielawski, Services for investors at Kraków Technology Park
- Overview of the German & European Composites Market
Dr. Michael Effing, Chairman of Composites Germany and AVK

12:00 Networking Lunch

13:15 Transfer to New Era Materials

14:00 Composite Company Visit | New Era Materials

New Era Materials is a company with expertise on the field of polymer chemistry. NEM developed a process by which thermosetting resins of various chemical compositions can be processed to become powders. These powders would melt with increase of temperature and then harden subsequently as thermoset material does. New Era Materials is also able to process the powder to become fiber composite sheet with similar properties for processing, such as thermoplastic organo sheet. They may be shaped under the influence of temperature, but would then chemically harden, in contrast to organo sheets.

16:30 Transfer to Hotel for Networking Dinner

19:00 Networking Dinner | Keynote Presentations

Keynote speeches with insights into Polish market and relevant information for foreign investors

- Joint Business Development and Open Innovation for Excellence in Lightweight | Dr. Michael Emonts and Dr. Kai Fischer, Managing Directors of AZL
- HELM POLSKA SP. Z O.O. | Wojtek Myszkowski, Department Manager
- Katcon Polska | Bernardo Turner, General Manager
- Triggo S.A. | Rafał Budweil, CEO

Networking Dinner (with rotating table groups per course)

AZL Composite Event in Poland

Program | October 11th, 2017

09:00 Transfer to Kompozyt-Expo – Largest Polish Composite Exhibition

10:00 Kompozyt-Expo | Guided Tours to 5 Company Booths

KOMPOZYT-EXPO, the 8th International Trade Fair for Composite Materials, Technologies and Products is the most important event in the composites industry both in Poland and Central-Eastern Europe. With 75% of exhibitors and visitors coming from Poland, the exhibition offers the option to meet regional and local composite professionals.

AZL will lead you to five selected booths of Polish companies. You will have the option to visit the exhibition yourself on Thursday or in the afternoon.

13:00 Networking Lunch and Closing Remarks

14:00 Option for individual visits of KOMPOZYT-Expo

List of Participants

Connectra Global KB	Andrew C. Mafeld	Managing Director
Evonik Poland	Dr. Andrzej Wolak	Senior Business Manager Central & Eastern Europe and Nordic
Evonik Resource Efficiency GmbH	Ron R. van Hoorn	Senior Business Manager
Gremolith AG	Leonhard Grämiger	CEO
HELM POLSKA SP. Z O.O.	Wojtek Myszkowski	Department Manager
Helm AG	Julian Eder	Product Manager BU Derivatives
IHI Europe Ltd.	Dr. Takahiro Shimada	General Manager / Principal Research Engineer
Markos Sp. z o.o.	Sebastian Kryński	Technologist
Mitsui Chemicals Europe GmbH	Christos Karatzias	Business Development Engineer
New Era Materials Sp. z o.o.	Dr. Andrzej Czulak	Chief Strategy and Development Officer
RMC - Radek Michalik Consulting	Radek Michalik	Managing Director
SAERTEX GmbH & Co. KG	Marek Ščerba	Technical Sales Eastern Europe + Finland
Triggo S.A.	Rafał Budweil	CEO
AZL Aachen	Dr. Michael Emonts	Managing Director
AZL Aachen	Dr. Kai Fischer	Managing Director
AZL Aachen	Dr. Michael Effing	Senior Advisor
AZL Aachen	Marina Biller	Head of Partner Network Services
