About Composites Germany

Through the trade association “Composites Germany”, the four major organisations in the fibre composites sector aim to strengthen the German composites industry, particularly in the field of research, determine common positions and take account of overlapping interests.

AVK - Federation of Reinforced Plastics e.V. (AVK), Carbon Composites e.V. (CCeV), CFK Valley e.V. and VDMA use Composites Germany as a forum to bundle their abilities and promote the future-oriented themes of high performance composites and automated production technology which are particularly relevant in Germany.
