26 November 2019 – No. 07/19

New AVK Executive Board from 1 January 2020

Dr. Michael Effing re-elected as Chairman of the Board

Frankfurt - The members of AVK, the German Federation of Reinforced Plastics, elected their Executive Board at a members' meeting in Stuttgart on 10 September 2019. Dr. Tilman Schultz, CEO of Cemo GmbH and AVK Board member for many years, was no longer available for re-election and was succeeded by Gerhard Lettl, CEO of C. F. Maier Europlast GmbH.

Dr. Michael Effing, CEO of AMAC GmbH, was confirmed as Chairman of the Board at the constitutive Board meeting on 25 November 2019. Dirk Punke, CEO of BÜFA Thermoplastics Composites GmbH, was elected as Deputy Chairman, while Prof. Jens Ridzewski (from IMA Materialforschung und Anwendungstechnik GmbH) was elected as Treasurer. Michael Polotzki, CEO of Menzolit S.r.L., also continues as a Board member. The Executive Board will be in office for three years from 1 January 2020.

About the AVK

The AVK, as the German professional association for fibre reinforced plastics / composites, represents the interests of producers and processors on a national and a European level.

Its services include the organisation of task forces, seminars and conferences as well as providing market relevant information (www.avk-tv.de).

The AVK is one of the four national pillars of the umbrella organisation of the German plastics converting industry (GKV) and a member of the European composites confederation EuCIA – the European Composites Industry Association.

The AVK is a foundation member of Composites Germany.
